DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on October 1, 2003, has been entered.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 21-25 are rejected under 35 U.S.C. 102(e) as being anticipated by Herrin et al. (5,706,524).

Art Unit: 3761

Herrin discloses a garment 20, as shown in figure 1, comprising an absorbent part 21 and two separate waist belts 30. The waist belts 30 are attached at one end to the absorbent part 21, and are fully capable of being fastened together around the wearer of the garment 20. The waist belts 30 have a stiffening material 33, as shown in figure 4, that varies in the cross-direction of the belts 30. The stiffening material 33 is extensible in the longitudinal direction. The belts 30 have a piece at the end that is free of stiffening material 33, as shown in figure 4.

With respect to claim 22, the extension coincides with essentially the length of the belts 30.

With respect to claim 23, the belts 30 fasten with releasable fasteners 36, 37.

With respect to claim 24, the absorbent part 21 comprises elastic 23 at one end.

With respect to claim 25, both belts 30 have a piece at the end that is free of stiffening material 33, as shown in figures 1 and 4.

Allowable Subject Matter

Claims 4-20 and 26-30 are allowed.
